SAINT-GOBAIN

# India's slimmest fire rated glazed partition

---

## Slim & beautiful profiles

bring the design vision to life

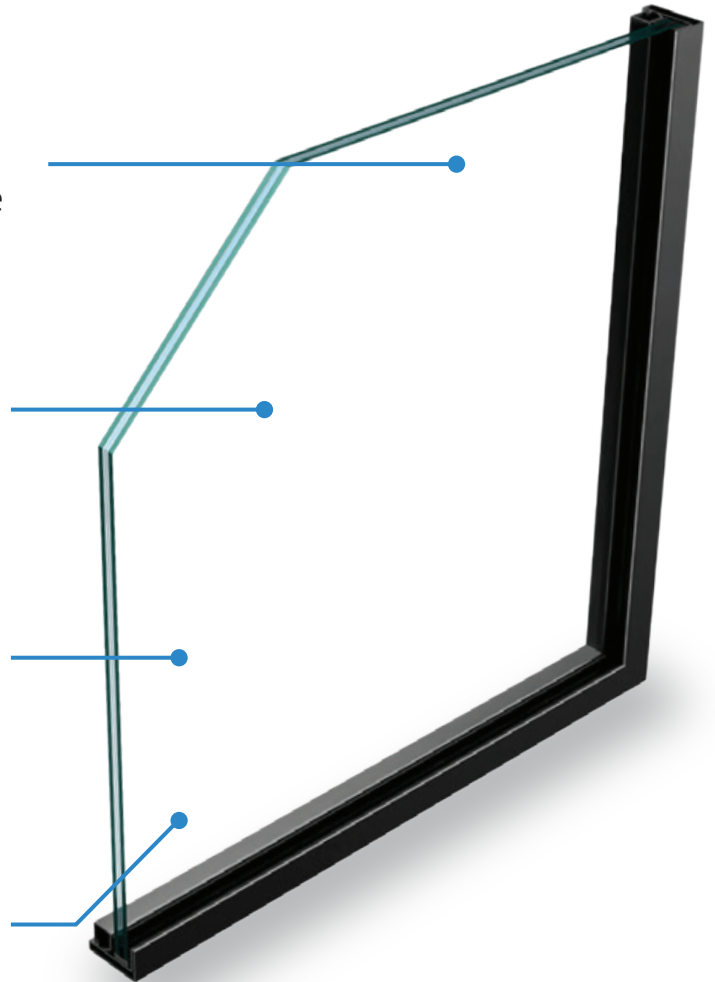

Safety and security with the **Vetrotech trust**

Tested and proven  
**fire protection**

Maximizes natural light and **occupant comfort**

## Meet VDS Slimline

India's only ultra slim fire rated glass partition. With a slim 23x50mm profile, it enhances visibility without compromising on safety. Perfect for modern partitions, it delivers a perfect balance between aesthetics, visibility, and safety.

## A balance of safety and style

We believe in the freedom to design without limitations and to imagine spaces that inspire and innovate. Spaces where safety supports every vision. That's why we've created a fire rated glazing solution that doesn't just meet the brief, it goes beyond.

Slimmest. Safest.

Most Stunning.

A high transparency glazed solutions that allows abundant natural light, creating spacious, open environments and increased occupant comfort. Whether for modern spaces or heritage building preservation, the sleek, minimal profiles integrate seamlessly.

For optimal fire performance and warranty coverage:

- Insist on installation by our VDS® Certified Installers.
- Request an inspection and ask for the report.
