Fire Protection with Diamond Clarity

CONTRAFLAM Lite with SGG DIAMANT® offers fire rating made with a very low iron oxide glass with highest light transmission and lowest natural colouring.

Aesthetics

With perfect neutrality, this solution allows the best possible transparency. Daylight enters the room almost unfiltered, which guarantees optimum natural illumination and unadulterated colour rendition.

Visual Comfort

The extra clear float glass SGG DIAMANT® enables the fire rated solution to provide more daylight, best colour neutrality and reduced absorption.

Experience diamond-clear transparency with uncompromising fire protection.

Tehcnical Specifications

CFL 120 with SGG DIAMANT
