

## **Fire Protection with Diamond Clarity**

CONTRAFLAM Structure with sGG DIAMANT® offers the highest fire rating made with a very low iron oxide glass with highest light transmission and lowest natural colouring.

## **Aesthetics**

With perfect neutrality, this solution allows the best possible transparency. Daylight enters the room almost unfiltered, which guarantees optimum natural illumination and unadulterated colour rendition.

## **Visual Comfort**

The extra clear float glass sGG DIAMANT® enables the fire rated solution to provide more daylight, best colour neutrality and reduced absorption.

Experience diamond-clear transparency with uncompromising fire protection.
