

Vetrotech Saint-Gobain

International AG is an international leader in the production of fire protection, safety and high performance glass for buildings and marine. Having grown successfully in the market over many years, Vetrotech – with headquarters in Switzerland - has several production sites in Europe and overseas as well as sales offices and its own test laboratories for safety glass.

Saint-Gobain develops, produces and sells construction materials and solutions that you can find everywhere where people live and work: in buildings, transports, infrastructures and industrial applications.

Don't change the world alone – but in a team with around 170'000 colleagues in over 60 countries and that has a mission for more than 350 years.

For our Sales Office in Copenhagen (DK), in collaboration with our Testing & Certification (T&C) Department we are currently seeking:

Sales Area Technician

for the planning, preparation and execution of fire test projects in national and international institutes.

Your responsibility:

- Autonomous planning, preparation and rework of projects (especially fire resistance tests)
- Communication with customers, institutes (test laboratories) and authorities (certified bodies, local building authorities)
- Elaborate test plans, technical drawings and technical documentation.
- Technical assistance to internal departments and customers (together with your supervisor who is a specialist)
- Technical support of major building projects
- Support for elaboration of customer solutions
- Maintenance of documentation for products, tests, certification and catalogues

Your profile:

- You are a personality who likes working independently
- Due to your winning way you are able to communicate with different contact persons
- You have a good command in (oral and written) English and you communicate in at least 1 Scandinavian language.
- Preferably you have practical work experience in construction or industry sector
- Ideally you have a technical/mechanical base education and expertise (including norms and instructions) in glass and/or metal and/or timber.
- Your eventual understanding of CAD systems would help you to be easily performant.
- You are ready to travel for business (especially in the Nordic countries but sometime also elsewhere in Europe) around 30-50% of your time

Our offer:

A mainly independent job in a small team of a successful, international group with flat hierarchies, a comfortable working atmosphere and an open, team-oriented environment. Very experienced colleagues will train you for this new challenge. Further training and development are part of our groups possibilities.

If this sounds interesting to you then please send your complete application in English to: hr.vetrotech@saint-gobain.com indicating VET_201829 as reference number. If you have further questions please contact Mr. Jesper Schmidt Hansen, Sales Area Manager (+45 24 25 55 36) or Mr. Peter Fischer, T&C Director (+41 79 287 96 93)

Please be aware that the HR Department of Vetrotech is in Switzerland and that your file is sent there before going to the local team.
